

Copper Metalin 500

Product Data Sheet

Chemical Name:	Copper Metalin 500.
Grade:	Agricultural.
Act 36 of 1947 Reg No:	B 4247
HTC Code:	2825.50
Appearance:	Orange red liquid.
Packaging:	5 ℓ High density polyethylene (HDPE) Agritainer.
Recommended Use:	Liquid fertilizer.
Foliar Application:	Ensures correct nutrient at correct timing for immediate uptake by leaves and/or fruit.
Copper function within plants:	<ul style="list-style-type: none">• Flower and seed formation.• Carbohydrate and nitrogen metabolism.• Photosynthesis and reproductive processes.• Increase sugar content, colour and flavour in fruits and vegetables.• Activation of enzymes.• Indirect role in chlorophyll production.• Influences lignification and xylem formation.
Specifications:	
	Cu (Copper) 500 g / ℓ minimum.
	Density ± 1.51 kg / ℓ

The Metalin product range offers the following advantages:

- ✓ Nano-engineered particles (smaller is better).
- ✓ High nutrient concentration.
- ✓ Pours and disperses easily into spray tank.
- ✓ ISO 9001, 14001 and OHSAS 18001 certified.
