

Zinc Metalin 700

Product Data Sheet

Chemical Name:	Zinc Metalin 700.				
Grade:	Agricultural.				
Act 36 of 1947 Reg No:	B 4249				
HTC Code:	2817.00				
Appearance:	White coloured liquid.				
Packaging:	5 ℓ High density polyethylene (HDPE) Agritainer.				
Recommended Use:	Liquid fertilizer.				
Foliar Application:	Ensures correct nutrient at correct timing for immediate uptake by leaves and/or fruit.				
Zinc function within plants:	<ul style="list-style-type: none">• Formation of auxin (growth hormones).• Protein synthesis.• Transformation and metabolism of carbohydrates.• Supports enzymatic systems for energy production and growth regulation.• Seed and grain formation.• Increase in flower and seed set.• Root development.				
Specifications:	<table><tr><td>Zn (Zinc)</td><td>700 g / ℓ minimum.</td></tr><tr><td>Density</td><td>± 1.74 kg / ℓ</td></tr></table>	Zn (Zinc)	700 g / ℓ minimum.	Density	± 1.74 kg / ℓ
Zn (Zinc)	700 g / ℓ minimum.				
Density	± 1.74 kg / ℓ				

The Metalin product range offers the following advantages:

- ✓ Nano-engineered particles (smaller is better).
- ✓ High nutrient concentration.
- ✓ Pours and disperses easily into spray tank.
- ✓ ISO 9001, 14001 and OHSAS 18001 certified.
