INTEGRATED QUALITY ASSURANCE, ENVIRONMENTAL, HEALTH, SAFETY AND FEED SAFETY POLICY

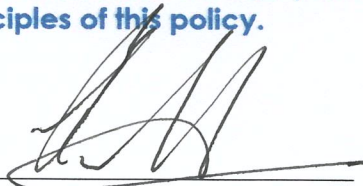

Kimleigh Chemicals SA (Pty) Ltd produces copper sulphate and chemicals for various industries.

We are committed to:

- Offer our customers products and services of high quality standards conforming to mutually acceptable customized needs.
- Comply with all relevant and applicable legislation, regulations, standards and requirements.
- Continuously improve our performance and management systems.
- Establish and review measurable objectives and targets for all functions and levels regularly for suitability and relevance to our organization during annual management reviews.
- Document, implement, maintain and communicate our policy to all our employees, stakeholders and interested parties.
- Minimize risk by protecting people, assets, income and the environment in which we operate.
- Provide appropriate Safety, Health, Environmental, Quality, Hygiene, feed safety and HACCP principles training.
- Prevent pollution.

As a condition of work we require that:

All our employees/contractors accept personal responsibility, accountability and commitment to adhere to the principles of this policy.
